

### **BGR-36 LP Combustor**

- Stock Number: CRC-C-003-04
- Qty: 2
- Location: Sundre

### **Features & Specifications:**

- Destruction removal efficiency greater than 99.9% and meets the requirements of EPA NSPS 40 CFR 60 Subpart OOOO, AER Directive 60, and Saskatchewan S-20
- 36" x 24' high-free standing
- Stainless steel fire tube
- May be operated with or without continuous pilot
- Air intake flame arrestor for reduced spacing or teardrop locations
- Main low pressure burner volume up to 100,000 scf/d or 2831 m3/d
- Operating pressures as low as 0.09 psi or 1.5 oz/in2
- Able to handle intermittent flows easily
- Flame containment mesh at air inlets for operator safety
- No visible flame
- Excellent turndown ratio
- Heat shield for operator safety
- In-line flame arrestor required
- Free Standing Base
- 12/24 VDC Required
- Solar Option Available
- Propane or Natural Gas Required for Pilot
